26 October 2007

Letter of recommendation

From October, 16 2006 till July, 27 2007 was Susan Hahne participating in the Bauhaus Kolleg, the international and interdisciplinary postgraduate professional program of the Bauhaus Dessau Foundation. During the academic year 2006/2007, the program focuses on the phenomenon of European cultural capitals.

The excellent work of Susan Hahne was an essential contribution to the Bauhaus Kolleg. The great talent, skills and experience he put into the work provided a major part for the success of the project. Her creative and critical approach to the urban design and her research work was highly appreciated. Susan Hahne has contributed to the discourse of the Bauhaus Kolleg in a substantial way.

In summary Susan Hahne was a very professional member of the Bauhaus Kolleg and we highly appreciated her participation. We can recommend her as an experienced and dedicated architect in the field of urbanism.

Ina Goegel
